6 Under ~~no~~ circumstances could Government be committed to maintenance charges

7 As regards the initial cost the following recommendations are made

8 The total estimate including Tools and plant charges calculated at 7½ per cent comes to Rs 7,600/-

9 The Municipality may bear half of this amount viz , Rs 3,800/- and Government the other half

10 As the percentage is low, the question of waiving the tools and plant charges may not arise

11 As regards contingencies, which amounts to Rs 338/-, a very small figure, there is no justification on the part of the Municipality to claim its waiving

Deputy Commissioner
Bangalore District

S Abdul Valid, Esq , B A ,
General Secretary to Government,
Bangalore

SIR

Subject —

I have the honour to state that the Executive Sanitary Engineer, Bureau of Sanitary Engineering has prepared an estimate for water supply to the Yelahanka Town at an estimated cost of Rs 7600/- including 5% contingencies amounting to Rs 338/- and 7½% Establishment, Tools and Plant Charges amounting to Rs 506/- It is proposed to utilise the existing two wells situated close to the tank-bed which are the present sources of water supply and to pump water from these wells by direct coupled electric motor and centrifugal pumps capable of pumping 2500 to 3000 gallons per hour against a head of 80' total The details of the scheme are furnished in the enclosed report of the Sanitary Engineer

The Municipal Council who were consulted in the matter have approved of the scheme and have resolved to request the Government to meet half the cost of the estimate excluding contingencies, Establishment, Tools & Plant charges, the Municipal Quota of contribution viz , Rs 3390/- being met out of the funds of the Municipality . As regards the recurring cost on account of the annual maintenance amounting to Rs 1350/- the Municipal Council have resolved to request the Government to contribute half the charges for a period of about 5 years as the Municipality is not in a position to bear the entire cost in this respect with their present limited annual income of Rs 3000/- only

Yelahanka town is a minor municipality with a population of about 3000 The upply of drinking water is very keenly felt and it is necessary that some action should be taken in this behalf In view of the present limited resources of the Municipality, I consider that some Government aid is necessary towards the propo ed project I request therefore that sanction of Government may kindly be obtained to the propo al of the Municipal Council at an early date

The estimate and other cornected papers are sent herewith for favour of reference

I have the honor to be,
Sir,
Your most obedient servant,
